GOLDEN VALUE, GOLDEN TRUST

Company Profile

Open letter

Dear VALUED CUSTOMERS!

GoVa Construction Company Limited, formerly known as Hao Kiet Trading Service Partnership, takes pride in its extensive experience in providing comprehensive legal services in the construction industry (planning permits, fire protection permits, construction permits, completion permits, trial operation, measurement, observation, environmental protection planning, land permits) nationwide; Construction works; Fire protection system construction; And installation of environmental treatment systems for various large projects.

We understand that the quality of construction is always a top priority. Therefore, Gova Cons places special emphasis on building and developing human resources, equipment, and construction technology. With a team of experienced and dedicated staff, along with a comprehensive system of well-invested machinery and equipment in terms of both breadth and depth, Gova Cons always ensures timely progress and satisfies all customer needs. We believe in delivering the highest quality products and excellent services to our valued customers.

We would like to express our sincere gratitude to our valued customers for their continuous support of our company throughout the past period. We look forward to continuing our collaboration with those who have used our products and with prospective customers who may have a need for our construction-related products and services.

Yours sincerely!

GoVa Construction Company Limited.

Vision – Mission Core Values

Vision:

To become the leading construction contractor in Vietnam, the preferred choice for international investors.

Mission:

Gova Cons is always ready to collaborate with customers both domestically and internationally. We are committed to continuous development, constant improvement, and enhancing product quality by adopting new technologies, providing excellent services, and offering the most reasonable prices. Customer satisfaction and trust are the keys to the company's future growth.
